TONEY USED THE KNIFE.

He Says He Carved Three Men in Self-Defense Monday Night.

Yesterday patrolman Lyons, who was detailed to hunt for the men who cut and badly injured Ed Wlies, George Lehr and Frank Riley, three young tough citizens, in a fight Monday night at the corner of Ohio and East streets, succeeded in arresting Allie Toney and Charles Fisher, who acknowledge they were the parties wanted. Toney stated that on the night of the affray he and Fisher were walking along Ohio street in company with a young lady, when insulting remarks were made by a gang of five men. He resented the insult, and the party soon came to blows. The three men were soon joined by two others, who succeeded in giving Toney and Fisher punishment, when Toney drew a knife and used it without hesitancy. When the party of five fled he and Fisher and the young lady went their way, without waiting to see the effect of the encounter. Toney and Fisher are employed at the Indianapolis basket factory, at No. 482 East New York street, and are reported to be men of good

A RECONCILIATION AFFECTED.

Judge Winters Disposes Happily of the Cordes Divorce Cago.

The Cordes divorce case came to a close yesterday morning. Judge Winters stated that he would not now grant Mrs. Cordes a divorce, but would take the matter under advisement. He thought that the woman needed medical treatment and a kind word from her husband much more than she did a divorce, and he proposed that she should have both. The husband and wife both agreed that a reconciliation would be much the best for them, and told the court that they were willing to go back home and begin life anew. Mrs. Cordes will be placed under the treatment of a skillful physician, and the court will reserve his decision until the result of the treatment is known. Judge Winters felt that he had made a happy disposition of the case, and was rewarded by seeing the tears spring to the eyes of both husband and wife at the conclusion of his remarks to them. They left the court room

The Controller hopes that a dividend of 10 or 15 per cent. may be declared this month.

Good Time the Five Tramps Had. On Monday night five tramps were arrested in West Indianapolis on the charge of vagrancy. The real cause for their arrest is that the men had in their possession several hundred stamps of different denominations. They could not satisfactorily explain where they had obtained them Yesterday Mr. Stevens, a saloon keeper, recognized the five as having been his saloon was entered and a large amount of cigars and bottled liquors stolen. When the men were found in West Indianapolis the police making the arrest noticed an unususal quantity of bottles and cigar stumps lying on the ground where the men had camped. A charge of grand larceny and burglary will now be filed against

Smith Again Demanded Furniture. William Smith was last week arrested for disturbing the peace. Smith and his wife some time ago separated, and the wife went to live at No. 319 East Merrill street. Smith went to the house and demanded one-half of the household furniture. He was given the family portraits and departed seemingly satisfied. Later he returned and demanded the cook stove. Reing unable to carry it away, he grew angry and created a scene by abusing his wife, after which he was arrested. Yeshe repeated his actions in demanding his portion of the household goods, and was ordered from the house by his wife He took offense and began to start trouble, but was arrested by patroiman Hunter before he was successful.

Bids on Sweeping Improved Streets Made by the Lineal Feet.

Property Owners Can Figure Out the Expense-No Awards Yet Made by the Board of Works.

At the meeting of the Board of Public Works yesterday morning almost the entire time was devoted to the opening of bids submitted for the sweeping of the improved streets. The blds embrace two seasons, from April 1 to Nov. 4, 1894, and from Nov. 5, 1894, to Nov. 3, 1895. Browder & Shover and Fuehring Brothers bid on all the dictricts; James Dobson, Frank and John Kennington bid on a few of the dis-

Under the old system the contractors bid a certain price for each ten thousand feet each time the street was swept, and the property owners had no way of estimating the probable cost a season for the work. Under the present system the bids are submitted for a certain price for the season, a lineal foot on each side of the street or alley to be swept. Under this plan the property holder can ascertain the amount. he will be called upon to pay for the sweeping. To the cost a lineal foot of property frontage will be added the total length of street and alley crossings. The specifications simply require that the streets be kept clean throughout the season, and the contractor is left to use any kind of apparatus he may desire or to have the sweeping done by hand. The board has sought to impress upon the contractors that it shall require the streets to be kept clean and will not permit half-way work. Robert Thomas, the present contractor for several districts, submitted bids, but they were not considered by the board because the proper certified check was not submitted with the bids.

By the terms of the specifications all contracts expire in November, 1895. Every bidder is required to bid upon every street in each district. The contractor is required to sweep between the car tracks and the work shall not be done in a way to cause offense to the residents of the street, and the board is made the sole judge as to whether the method adopted is offensive. The degree of cleanliness required is such that dust shall not be raised from the streets by passing vehicles or conditions of the atmosphere. The board retains the right to rescind the contract at any time when the work is not done to the satisfaction of the board. In case of a recission of the contract the contractor will be paid for the work actually done. In the second season for all work done during the months of December, January and February the contractor is to be paid for the actual cost of the work done. The bids submitted were as follows:

The father of Arthur A. Truesdaie, who is in jail here awaiting trial on a charge of robbing the mails, is making strenuous efforts to secure his son's release. He has been trying to obtain bond, but so far has accomplished nothing. it is likely, however, that in a short time he will come here from his home in Illinois and arrange for a bond. Truesdate is the postal clerk who while running between Evansville and Chicago, rifled registered packages and went on a spree with the money. He claimed. when arrested in Chicago, that the Ketley cure, which he had taken shortly before, had made him temporarily insane, and he did not realize what he was doing. His bail is only \$500, and it would seem that his father, who is reputed to be well off, should have no trouble in arranging a bend. John Harley, of Angola, who is in fail on a charge of sending an obscene letter through the mails, will be released this week on a \$300 bond. Martha Morton, who wrote "Brother John," the new play comedian William H. Crane is to present at the Grand Opera House, is a very hard-working and energetic young woman. She is one of the charter members of the Twelfth Night Club in New York, an organization composed entirely of young women who earn their living from the stage, and is also a member of the Woman's Professional League, an organization started with the intention of aiding poor young women seeking their livelihood on the stage. It was after seeing her play of "Geoffrey Middleton, Gentleman," that Mr. Crane commissioned her to write "Brother John," and in it she is said to have done her best work. The young woman's first effort was a parody on "May Blossom" while that play was a great suc cess in New York. Its reception decided her to take up play-writing as a profession. She went to Paris, and while there wrote "Helene," a play Clara Morris presented all of one season. Then came "The Merchant," which was the successful work in a prize competition, and after that "Geoffrey Middleton." Miss Morton is a very unobtrusive person, dresses in quiet colors, believes every woman should marry, and is not an advocate of woman suffrage. Peter Baker has revived "Chris and Lena" and "The Emigrant," and will present both pieces at the Park next week, opening Monday in the former. It was an undisputed fact that prominent men had risen from the ranks of the street arab, and it was not improbable that such would be the result of the future if the work among the boys was continued. He thought the results of the work during the career of the present home were promising.
